

Installing the license file

To generate the permanent license file for your computer go to Help \ Activate Product. This will start the activation wizard.

Step 1

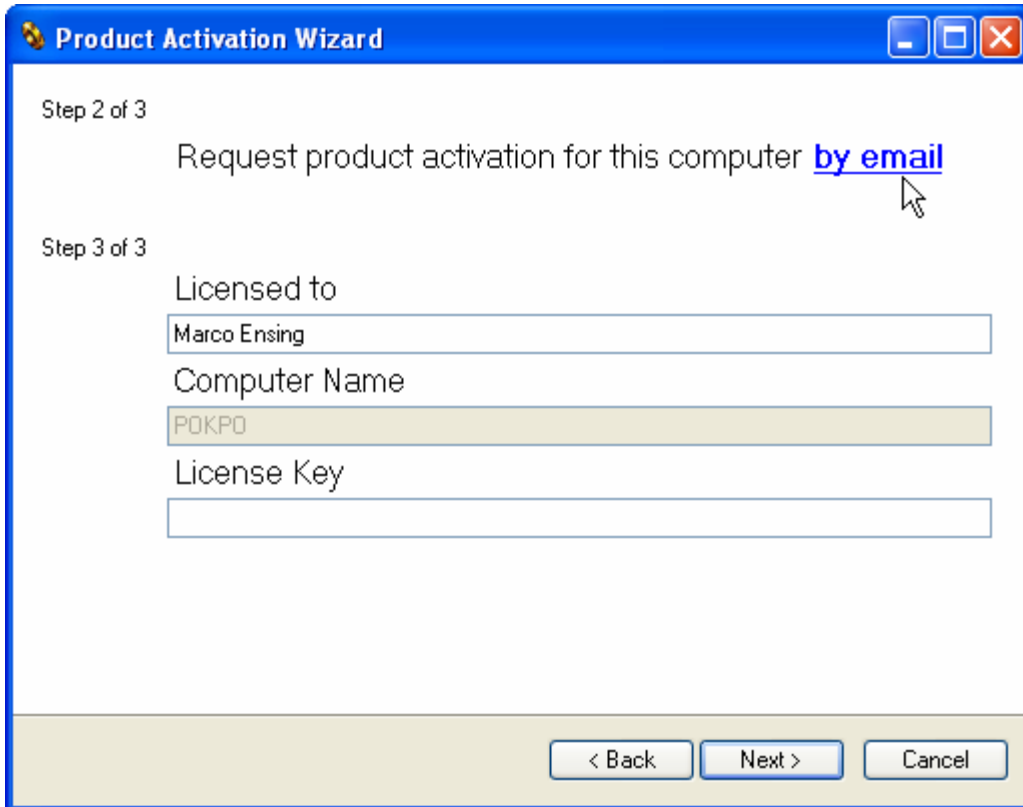

Fill in the Name and the Temporary License Key that you have received by email.

Click Next

Step 2

Continue to 'Request product activation for this computer' by click on the 'by email'-link

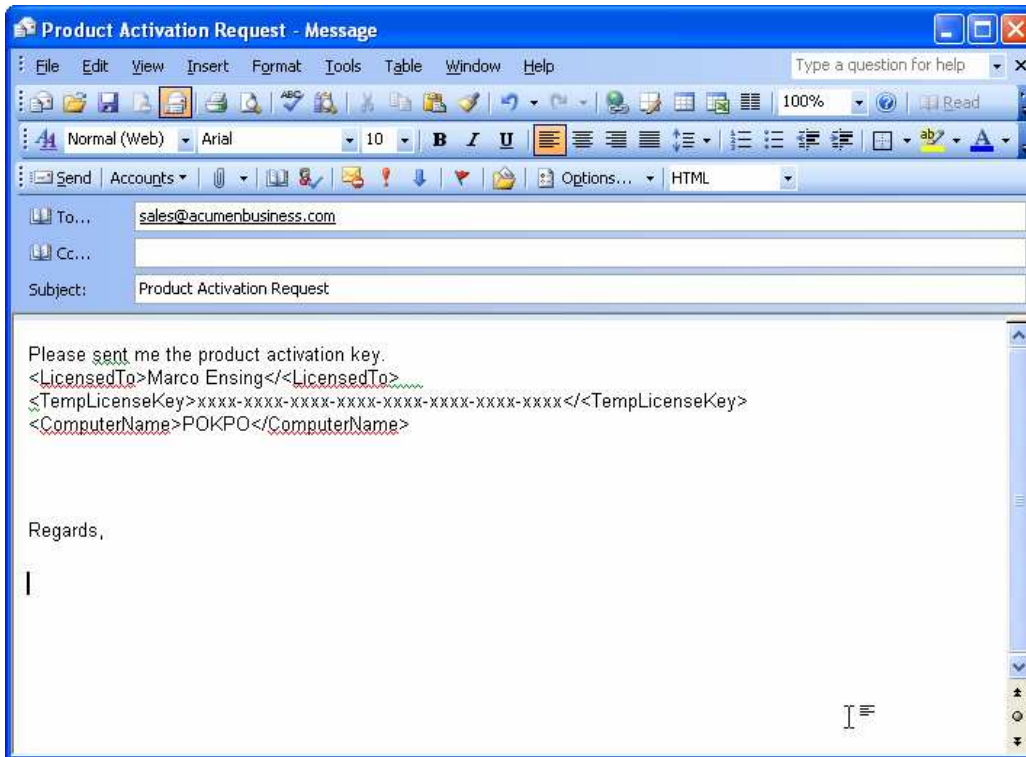

The image shows a Windows-style dialog box titled "Product Activation Wizard". The window has a blue title bar with standard minimize, maximize, and close buttons. The main content area is divided into two sections:

- Step 2 of 3:** Contains the text "Request product activation for this computer" followed by a blue, underlined link "by email". A mouse cursor is pointing at this link.
- Step 3 of 3:** Contains three input fields:
 - "Licensed to" with the text "Marco Ensing" entered.
 - "Computer Name" with the text "POKPO" entered.
 - "License Key" with an empty text box.

At the bottom of the dialog, there is a light-colored bar containing three buttons: "< Back", "Next >", and "Cancel".

This will start the email client with the information we need to generate the permanent license information

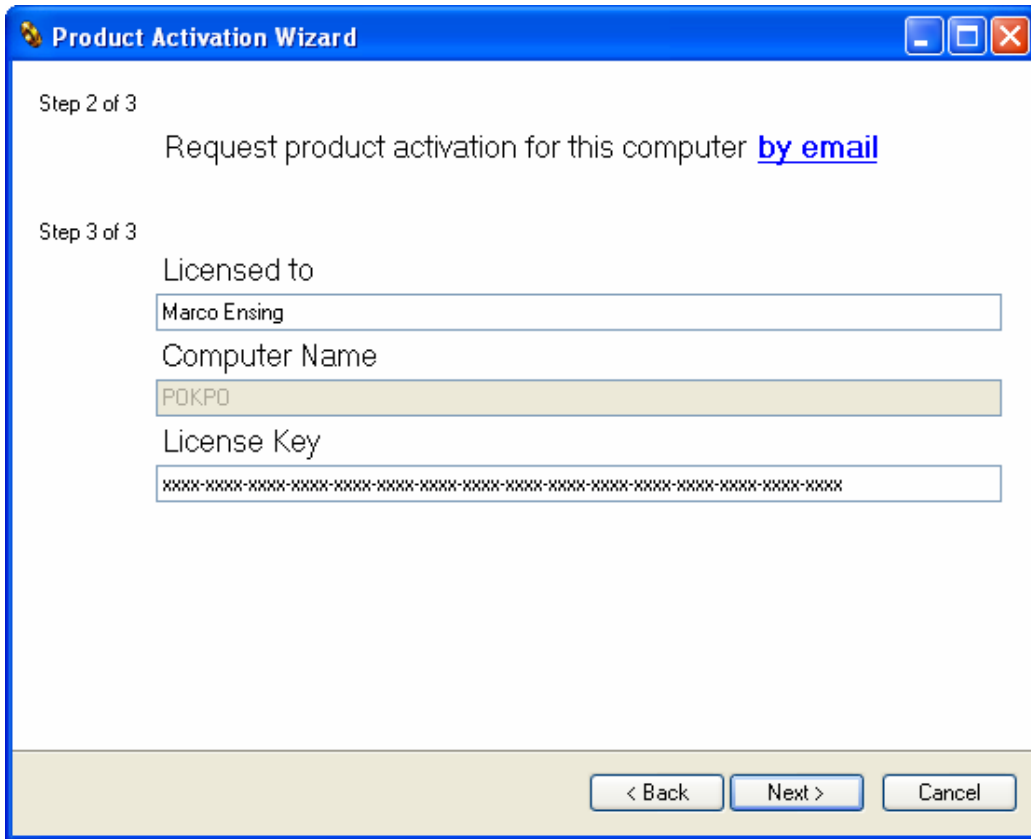

We will send within one business day the permanent license key.

Step 3

Copy the permanent license key to the clipboard and paste this data into the final step of the wizard

Note that the permanent license key has 16 groups of 4 characters

You can activate the product on your second computer by repeating Step 2 and Step 3.

Regards,

support@acumenbusiness.com
